## GRAND PRIX FANS

Thank you for joining us at beautiful Belle Isle Park for the 2019 Chevrolet Detroit Grand Prix presented by Lear. This weekend represents a special celebration in the Motor City as it is the 30th Grand Prix in Detroit's history. There have been some special memories and landmark moments at the Grand Prix over the years, and we look forward to creating more and adding to the heritage of this great event.

When the Grand Prix originally came to Detroit in 1982, one of the goals was to showcase Detroit to an international audience and highlight the renaissance of the city. We continue to build on those traditions in 2019 as the beauty of Belle Isle and the shared Detroit and Windsor waterfronts will be seen by over a million people through race broadcasts shown across the United States and around the world.

We are proud of the world-class racing lineup on track at the Grand Prix, featuring the NTT IndyCar Series in the Chevrolet Dual in Detroit, along with the IMSA WeatherTech SportsCar Championship racing in the Chevrolet Sports Car Classic and the Trans Am Series presented by Pirelli.

We encourage you to also experience the exciting activities the Grand Prix has to offer away from the action on track. The Meijer Fan Zone includes interactive displays, games and the Detroit Sports Zone, featuring stars from our Detroit professional sports teams. We will have great live music all weekend long highlighted by Michigan-born country music star Frankie Ballard on Saturday and the Stone Temple Pilots, one of the most popular rock bands in the last 25 years, performing on Sunday afternoon.

Chevrolet and General Motors helped bring the Grand Prix back to Belle Isle in 2012 and they have been great partners and supporters of our event. We want to thank them, and Lear Corporation, for all they do to help us host one of the most popular annual summertime events in the Motor City. We appreciate all of our 70 plus partners that are represented at the Grand Prix. The support of these great companies and the work of our dedicated Detroit Grand Prix Association volunteers keep our wheels turning and help this event truly shine.

Along with our partners, the Grand Prix has contributed more than \$13.5 million to help make lasting improvements to Belle Isle Park since the event returned in 2007. We continue to work with our partners at the State of Michigan, the Department of Natural Resources and the Belle Isle Conservancy to revitalize Belle Isle and give back to Detroit's island jewel.

Thanks again for being part of this special weekend and helping make the 2019 Chevrolet Detroit Grand Prix presented by Lear an event to remember.

Sincerely,

Bud Denker  
Chevrolet Detroit Grand Prix presented by Lear Chairman

## DEAR RACE FANS

On behalf of General Motors, Chevrolet and Cadillac, I'd like to welcome you to Detroit and to Belle Isle for another great weekend of motorsports action at the Chevrolet Detroit Grand Prix presented by Lear.

Watching the world's best drivers face the challenge of the island's 2.3-mile street circuit is exhilarating, no matter how old you are or how many times you've done it before. In addition to the world-class racing, the event also features live music, entertainment, interactive displays, food, drinks and fun for fans of all ages.

Not only is this one of the most exciting weekends of the year in downtown Detroit, it's also one of the most important. The weekend of racing at Belle Isle generates tens of millions of dollars in total spending across the entire Metro Detroit region.

Belle Isle will host five races from three series, May 31 – June 2, including what is still the only doubleheader race weekend on the NTT IndyCar Series schedule – the Chevrolet Dual in Detroit IndyCar doubleheader.

As the only doubleheader on the schedule, the event weekend has huge implications in the Series' championship battle. Immediately following the Indianapolis 500, it's also a big shift in strategy, setup and execution of race plan. These ingredients are sure to combine for an exciting weekend of great racing action.

The weekend's races at the Chevrolet Detroit Grand Prix presented by Lear include:

- Chevrolet Dual in Detroit (NTT IndyCar Series)
- Chevrolet Sports Car Classic (IMSA WeatherTech SportsCar Championship)
- The Muscle Car Challenge and the Motor City Dash (Trans Am Series presented by Pirelli)

I can't think of anywhere else I'd rather be and I'm glad that you feel the same way.

Thank you for joining us and I hope you have a great time.

Sincerely,  

Mark L. Reuss  
General Motors President

## THE RACE SERIES

### NTT INDYCAR SERIES

The NTT IndyCar Series is the premier open-wheel, open-cockpit racing series in North America. The series offers one of the most diverse and challenging schedules in motorsports, with races held on superspeedway ovals, short ovals, permanent road courses and temporary street circuits such as The Raceway at Belle Isle Park. Chevrolet and Honda are the competing engine manufacturers in the NTT IndyCar Series. Dallara is the sole chassis maker and developer of the universal aero kit for all cars that premiered in 2018.

The series features such star drivers as five-time and reigning series champion Scott Dixon, Tony Kanaan, James Hinchcliffe, Josef Newgarden, Graham Rahal, Ryan Hunter-Reay, Will Power, Marco Andretti, Simon Pagenaud and Alexander Rossi. Belle Isle hosts the only doubleheader race weekend on the 2019 series schedule, with two full points-paying championship races on back-to-back days in the Chevrolet Dual in Detroit. ### IMSA WEATHERTECH SPORTSCAR CHAMPIONSHIP

The IMSA WeatherTech SportsCar Championship is North America's premiere sports car endurance racing series. Competitors from across the globe compete for honors at some of the most historic and iconic race tracks in North America. The series features a total of four classes: Daytona Prototype international (DPi), Le Mans Prototype 2 (LMP2), GT Le Mans (GTLM), and GT Daytona (GTD) racing at the same time at most races, driven by many of the world's best road racers. The Chevrolet Sports Car Classic on Belle Isle will include the DPi and GTD classes.

The DPi class features the fastest and most technologically advanced cars in North America. DPi cars from manufacturers such as Acura, Cadillac, Mazda and Nissan are specifically designed and engineered for the race track. While unique in appearance, the technology being developed in the DPi category is relevant and directly tied to manufacturers' R&D initiatives.

The GTD cars are enhanced by technology and utilize the global FIA GT3 technical specifications. The GTD class consists of cars from leading manufacturers such as Acura, Audi, BMW, Ferrari, Lamborghini, Lexus, Mercedes-AMG and Porsche.

The 12-race 2019 WeatherTech Championship schedule is highlighted by endurance races such as the around-the-clock season-opening Rolex 24 At Daytona, the Mobil 1 Twelve Hours of Sebring Presented by Advance Auto Parts and the 10-hour Motul Petit Le Mans at Michelin Raceway Road Atlanta. ### TRANS AM SERIES PRESENTED BY PIRELLI

The Trans Am Series presented by Pirelli began igniting the passion of motorsports fans across the world in 1966. Today, Trans Am continues to honor its legacy, while challenging the status quo in racing through meaningful racing platforms and a driver-oriented focus. Featuring world-renown GT cars in TA, the revitalization of the pony wars in TA2, and pure production racing in TA3 and TA4 – Trans Am is truly America's Road Racing Series.

Over the course of its 54-year history, Trans Am has featured road racing icons such as Bob Tullius, Peter Gregg, Wally Dallenbach, Jr., Dorsey Schroder, George Follmer, Mark Donohue, Sam Posey, Scott Sharp and Tommy Kendall. The full Trans Am Championship returned to race on Belle Isle in 2017 and the 2019 Detroit race weekend will feature two races from the TA2 class in full force.

### IMSA SERIES CLASS COLORS

To help fans easily identify a class of car, the IMSA WeatherTech SportsCar Championship uses a color system.

The DAYTONA PROTOTYPE INTERNATIONAL class is designated by BLACK markings on the number panel and WHITE leader lights

The GT DAYTONA class is designated by GREEN markings on the number panel, mirrors, windscreen banner, rear wing end plates and leader light.

Number panels are backlit for easy identification at night.

### LEADER LIGHT SYSTEM

To help fans follow the on-track action, IMSA uses a Leader Light System. It allows fans to easily identify the position of each car in its respective class.

The position of the car is displayed on an LED panel mounted on the side of the car and the color of the LED number corresponds with the class.

For instance, an illuminated LED GREEN number 5 on a GTD style car means that car is in 5th position in the GTD class.

### CLASSES

The IMSA WeatherTech SportsCar Championship features two styles of cars – Prototype, which showcase the latest automotive technology and are uniquely designed for the race track, and Grand Touring, which is based on road-going production models.

### CLASS SPECIFICATIONS

#### DPi DAYTONA PROTOTYPE INTERNATIONAL

The fastest and most technologically-advanced sports cars in North America, the Daytona Prototype international (DPi) is specifically designed and engineered for the race track. Taking design cues from production vehicles, the manufacturer-based class is relevant and directly tied to manufacturers' R&D initiatives.

#### GTD GT DAYTONA

The GT Daytona cars are enhanced (not defined) by technology and utilize the global FIA-GT3 specification. The GTD class consists of cars from leading manufacturers such as Acura, Audi, BMW, Ferrari, Lamborghini, Lexus, Mercedes-AMG, and Porsche.
